

# 30 Seconds to Mars, Love Is Madness (ft. Halsey)

you are insane  
my desire  
a violent daydream  
love, love

you are crazy  
a perfect liar  
said you'd save me  
love, love

I know the moment I looked into your eyes  
I'd have to swallow all your lies

I never said that I would be your lover  
I never said that I would be your friend

I never said that I would take no other  
be your lover never said

you are insane  
my desire  
a dangerous game  
love, love

you are crazy  
a perfect liar  
simply save me  
love, love

I know the moment I looked into your eyes  
I'd have to swallow all your lies

I never said that I would be your lover  
I never said that I would be your friend

I never said that I would take no other  
be your lover never said

Love Is Madness

I know the moment  
I know the moment  
I know the moment  
Love Is Madness  
I know the moment I looked into your eyes  
I know the moment I looked into your eyes  
I know the moment I looked into your eyes  
Love Is Madness

I never said that I would be your lover  
I never said that I would be your friend

I never said that I would take no other  
be your lover never said
