Aitch, Mario Kart (feat. Rago Loco)

Test Aitch like what come again
Tell a man rest up in the booth key'd up, go ahh joke
Me I do, on the beat man come like Mario Kart (vroom)

And now I'm rappin', I been lappin man with bars

I, step in the booth with class I'm a maestro
Flow too nice though when I breeze past with a bitch and my hand on nitro
Dunno I'm takin' her home shes a psycho (shes mad)

Yoshi best get back, lick up a turtle shell to his head back
Swervin lanes like a burning chase
But it's peak when I get some space and I draw for the jetpack

Rags tell em, sixteenth of sixteen back to back
They still talkin wack so they daft, shell em
Poisonous bars, I spit mad venom

Yeh track shellers, rag shellers
Shower bad weathers
I do skrt on the beat like Mario, I got mad tekkers

If I'm on it then it's a good tune
What I got day ones summer like June

So I may, light up your day
Or light up you if you get in my way
Southside from where the shells go boom
Bounce on man might send for the goons

And you can't get over racks
I'm trapman won't get overlapped
Go over heads when I caught my wraps
If it involves coins then I'm all over that

Cause I work to get paid and in this race I'm getting first place
And if man tests put shells in man just like my birthplace
