AlunaGeorge, I'm In Control (ft. Popcaan)

I'm in control!

I like crashing waves,
But I want to see them at first line
After a long night
And see the sky take shape,
But I want to see the stars burn
After I've had my turn

And you're working so hard
You played your card,
So what's the payoff?
And big talk is cheap
You've gotta go deeper than deep to get me off

If you're picking up my call
I got to tell you once you know that
I'm in control, I'm in control
Don't you know I want it all?
Put your hands against the wall
I'm in control, I'm in control

[Popcaan:]
....

And you're working so hard
You played your card,
So what's the payoff?
And big talk is cheap
You've gotta go deeper than deep to get me off

If you're picking up my call
I got to tell you once you know that
I'm in control, I'm in control
Don't you know I want it all?
Put your hands against the wall
I'm in control, I'm in control

I'm in control!

[Popcaan:]
All night me
I'll give you love
...

If you're picking up my call
I got to tell you once you know that
I'm in control, I'm in control
Don't you know I want it all?
Put your hands against the wall
I'm in control, I'm in control
