Aitch, Money Habits (feat. Mastermind)

I got me on money habits
Paid in full and that's no cappin'
Different women different fashion
Never thought that this could happen
She fell in love with a savage
In these streets there ain't no lacking
She want that Chanel bag patterned
But is she gown but the habad in

Yeah
I got me some different habits
Drinking smoking linking baddies
Triplet mercs three different classes
Never thought that this could happen

Take a pic like which one's baddest
Then give thanks I live so lavish
Sometimes it don't sink in
But I'm living my dream and the real ones back it

Yeah I might hit some zoots but money's a drug I'm addicted too
Ex girl text she miss me but she don't gimme the feeling the fifties do
18 when I seen hundred tracks not businessman was business yute
Now when I have some kids of my own they can start their lives on a different route

Cause
I got me on money habits
Paid in full and that's no cappin'
Different women different fashion
Never thought that this could happen
She fell in love with a savage
In these streets there ain't no lacking
She want that Chanel bag patterned
But is she gown but the habad in

I got me on money habits

Different women different fashion
Never thought that this could happen
She fell in love with a savage
In these streets there ain't no lacking
She want that Chanel bag patterned
But is she gown but the habad in

Racks on racks I'm racked up
See these niggas trapping backwards
Give them Oscars cause they're actors
I spent lacaag on this fashion
Foot down in the foreign watch me overtake this traffic
With a suttin' in the passy moaning bout her nails and lashes

More money more problems
Can't act like I ain't got them
Back then I had to ruch home if you grew up in Moston
Yeah
110s and a Gucci hat
Outside the shop whole group of cats
Used to think nobody could move to man
Pull up stinking of cheddar used to put 5 to a benner
Right now I'm richer than ever but I can't lie I've felt better

So money don't make man happy I guess
Cause when man ask if I'm happy I guess
I don't think cash will tackle stress

But I got a habit so cash affi get

Cause
I got me on money habits
Paid in full and that's no cappin'
Different women different fashion
Never thought that this could happen
She fell in love with a savage
In these streets there ain't no lacking
She want that Chanel bag patterned
But is she gown but the habad in
