Ariana DeBose, Electric Energy (From Argylle) - f

Walking down the street
Never looking for a fight
All those bad boys call you freak
Oh their mother thinks they're right
Screaming for the glitter boys
All the devils you employ
All the things you fake
All the ways you hate
Give me your electric energy
Let me feel that fire burning inside of me
Oh oh oh oh
Send it from my fingers to my feet
Aim that light, and shine it down on me
Electric Energy
Come on take my hand yeah the temperatures rising
We're turning up the heat baby you and me,
So hold on to me tight cause the world is spinning
Underneath our feet oh oh oh
Screaming for the glitter boys All the devils you employ
All the things you fake
All the ways you hate
Give me your electric energy
Let me feel that fire burning inside of me
Oh oh oh oh
Send it from my fingers to my feet
Aim that light, and shine it down on me
Electric Energy
Give it to me Give it to me Give it to me bad boy
Give it to me sad boy Give it to me ghost boy
Give it to me All the devils you employ
And give me your electric energy
Let me feel that fire burning inside of me
Oh Send it from my fingers to my feet
Aim that light, and shine it down on me
Electric Energy
