Alicia Keys, Perfect Way To Die

Simple walk to teh corner store
Momma never thought she would getting a call form the coroner
Said her son’s been gunned down
been gunned down

„Can you come now?”
Tears on ther eyes
„Can you calm down?
Please, ma’am
Can you calm down?”

But it rained fire in the city that day
They say
A river of blood in the streets
No love on the streets
And then came slience on the city that day
They say
Just another one gone
And they tell her, „move On”
Nd she’s stuck there snging:

Baby, don;t you close your eyes
This could be our final time
And you know i am horrible at saying goodbye
And i think of all you cou;d’ve done
At least you’ll stay forever young
I guess you’ve picked the perfect way to die
I guess you’ve picked the perfect way to die
