Alle Farben & Janieck, Little Hollywood

We’re living in our own little Hollywood
Watch up stars, this go to be good
We got everything we need in our neighborhood
No fancy car, everything’s got to be good

When we’re 15
Smoking in the bars
Every really knows you
But I was fall apart
Remember Jimmy speaker
… driving in the dark
When I think about it now
We didn’t think at all

We’re living in our own little Hollywood
Watch up stars, to everything gonna be good
We got everything we need in our neighborhood
No fancy car, everything’s gonna be good

I don’t wanna know where’s gonna go this o crazy
Live that life

We’re living in our own little Hollywood
Watch up stars, to everything gonna be good
We got everything we need in our neighborhood
No fancy car, everything’s gonna be good

Remember getting busted
Feeding
You lifted me rebelliously
With hands
I wander what you’ve been up to
Jimmy is still the same
The old three in the backyards
The scar with our names

I hang over with everyone and know that we did that
I don’t wanna know where’s gonna go this o crazy

We’re living in our own little Hollywood
Watch up stars, to everything gonna be good
We got everything we need in our neighborhood
No fancy car, everything’s gonna be good

I don’t wanna know where’s gonna go this o crazy
Live that life
