Anastacia, Caught In The Middle

we’ve been rolling like a thunder
ain’t been no other
got my back the way you do babe

and everyday it gets stronger
the way that I want you
I can’t push it away

and every day I’m trying to find the words
the words to say
but I’m trying not to complicate the games we play
and I don’t know how
what way, but things got to change

now my heart sings out so loud
boy I need you know
I need you know

oh you
Caught In The Middle
Caught In The Middle
between my heart and my head

I don’t need that
you don’t need that
we don’t nned that

but I’m Caught In The Middle
yes, I‘m Caught In The Middle
don’t wanna fall out of rhythm

I don’t need that
you don’t need that
we don’t nned that

ou got the eye of tiger
an unending fire
and it’s calling my home

and every day I’m trying to find the words
the words to say
but I’m trying not to complicate the games we play
and I don’t know how
what way, but things got to change

now my heart sings out so loud
boy I need you know
I need you know

oh you
Caught In The Middle
Caught In The Middle
between my heart and my head

I don’t need that
you don’t need that
we don’t nned that
