Ansel Elgort, Home Alone

Time told all
I was stranded un my head
From moments it was done but then I’s lie in bed

And miss your smile
And miss your laugh
And miss the memoirs form our past
/2x

I don’t wanna go home
Alone
/2x

At the end of the nioght
When I turn off the light
And the bullshit fades away
I don’t wanna go home
Alone

So open up that door
And tlet;s find a solution
COZ, baby, you’re the World
I won’t be your pollution
And if you cry I will dry your eyes
I stand beside you
I will give you time
We both know
I;ve got room to grow
Just hold my hand
Baby, I never let it goes!

I don’t wanna go home
Alone
/2x

At the end of the nioght
When I turn off the light
And the bullshit fades away
I don’t wanna go home
Alone
