BØRNS, Lana Del Rey, God Save Our Young Blo

damn, look at the sunrise
glowing finish line
made it in record time
hay baby, we made it
my heads faded
headlights dilated

spinning
spinning
and I can’t sit still
spinning
spinning
and I can’t sit still

baptized in blue skies
roll the window down
reach out
feel around foe new lights
damn
you and those green eyes
we can never stop moving
we see nothing but the green lghts

spinning
spinning
and I can’t sit still
spinning
spinning
and I can’t sit still

God Save /2x
our young blood
God Save /2x
our young love
hot pavement
hot wheels in the sun
God Save /2x
our young blood
God Save /2x
our young love
warm waves
on the coast where we love
God Save our young blood

climbed up the three of life
kicked of out paradise
living good
doing evil is the toss of the dice
couple of wild eyes
cup full of high life
she’s an angel and a devil of her own

she’s got spinning
spinning
and I can’t sit still
spinning
spinning
and I can’t sit still

God Save /2x
our young blood
God Save /2x
our young love
hot pavement

hot wheels in the sun
God Save /2x
our young blood
God Save /2x
our young love
warm waves
on the coast where we love
God Save our young blood

god save the ocean
god save the breeze
save the words from my lips
save the birds
save the bees
baby save me one last spi
while you strip on the beach
I'll say you in the waves if you swim to deep
God Save
our young blood
