Cheat Codes, Put Me Back Together (feat. Kiiara)

I never met nobody
who sees the stars the way you do
nobody that can love me
When I'm stumbling around the room
you put your hands around my body
And you give me that room
And I know that you got me
When I'm falling into you

you take me high
I;m dropping low
and you show me places I never know
Even when we just running around town getting stoned
boy, you put me back together again
a coca cola Hennessey
everybody say you're no good for me
but you're my fucked up remedy
boy, you put me back together again

put me back together again

when you're lying with me on the car hood
sharing such a sweet dream
you make me feel so classy
Like I'm an L.A. queen
You don't care that I'm broken
You don't care that I'm me
you just say that I'm caught in
like a Jesus on this piece

you take me high
I;m dropping low
and you show me places I never know
Even when we just running around town getting stoned
boy, you put me back together again
a coca cola Hennessey
everybody say you're no good for me
but you're my fucked up remedy
boy, you put me back together again

put me back together again

you take me high
I;m dropping low
and you show me places I never know
Even when we just running around town getting stoned
boy, you put me back together again
a coca cola Hennessey
everybody say you're no good for me
but you're my fucked up remedy
boy, you put me back together again
