# Cashmere Cat, Love Incredible (Feat. Camila Cal

I forgot the feeling
the feeling of being alone but not lonely
i guess when you touch me
my fears and my secrets belong to you only
close the door behind you
just let me love you, go with you, hold you
my mind stays on you
so does my body,
let me show you

but I wanna come through
and I wanna need you
could you be my muse
lately,
all I think about it is you
and I'm never sick about it

this love is incredible, 'credible
have a little mercy on me baby
you got me wanting more, wanting more
of your love

it's incredible, 'credible
have a little mercy on me baby
you got me wanting more, wanting more
of your love

i know you've been hurt
by the way that you look away from me too early
you don't like to talk about it and that's fine, i get it so don't worry

but I wanna come through
and I wanna need you
could you be my muse
lately,
all I think about it is you
and I'm never sick about it

this love is incredible, 'credible
have a little mercy on me baby
you got me wanting more, wanting more
of your love

it's incredible, 'credible
have a little mercy on me baby
you got me wanting more, wanting more
of your love

wanting more, wanting more,
of your love
