

Alesso, Sad Song (feat. TINI)

i'd go to the moon
just to get close to you
but sitting in your room
I feel so far far far away
you know what to do to pull me into you
cuz every time you move
you take my breath breath breath away

when I hear you
suddenly off my feet
so baby come through
I'll pay you on repeat

you're singing a sad song
but you make it sound happy
you got the perfect words
to hurt me so
hurt me so good
you're singing a sad song
but you make it sound happy

you're playing my heart
and I am falling apart
just like I knew I would

tell me why o save every last dance for you
and everything you say
I memorize it all
you know how to get me higher
even when I wanna cry
but you're setting me on fire
just to warm you up

when I hear you
suddenly off my feet
so baby come through
I'll pay you on repeat

you're singing a sad song
but you make it sound happy
you got the perfect words
to hurt me so
hurt me so good
you're singing a sad song
but you make it sound happy
