## Alesso, Sad Song (feat. TINI)

i'd go to the moon
just to get close to you
but sitting in your room
I feel so far far far away
you know what to do to pull me into you
cuz every time you move
you take my breath breath breath away

when I hear you suddenly off my feet so baby come through I;'ll pay you on repeat

you're singing a sad song but you make it sound happy you got the perfect words to hurt me so hurt me so good you're singing a sad song but you make it sound happy

you're playing myt heart and I am falling apart just like I knew I would

tell me why o save every last dance for you and everything you say I memorize it all you know how to get me higher even when I wanna cry but you're setting me on fire just to warm you up

when I hear you suddenly off my feet so baby come through I;'ll pay you on repeat

you're singing a sad song but you make it sound happy you got the perfect words to hurt me so hurt me so good you're singing a sad song but you make it sound happy
