

# Alicia Keys, In Common

Said I'd be gone by 5  
But it's sunrise and I'm still in your bed  
Goodnight usually means goodbye  
Me replaying memories in my head  
Look at you /2x  
Look what you made me do  
How do you /2x  
Fake them with everyone move  
Who are you? /2x  
You look so familiar  
I know you /2x  
Baby I know the truth

We got way too much in common  
If I'm being honest with you  
We got way too much in common  
Since I'm being honest with you

Who wants to love somebody like you?  
You wanna love somebody like me?  
If you could love somebody like me  
You must be messed up too  
Who wants to love somebody like me  
You wanna love somebody like me  
If you could love somebody like me  
You must be messed up too

We used to talk till midnight  
All those days that you stayed at my house  
We're just passing the time  
When we're young and we ain't had no vows  
Now, now, now, maybe later on  
I'll text you and maybe you'll reply  
We both know we had no patience together day and night  
Getting high on spur supply  
We ain't satisfied  
I could love you all occasions
