

# Alicia Keys, Perfect Way To Die

Simple walk to teh corner store  
Momma never thought she would getting a call form the coroner  
Said her son's been gunned down  
been gunned down

„Can you come now?”  
Tears on ther eyes  
„Can you calm down?”  
Please, ma'am  
Can you calm down?”

But it rained fire in the city that day  
They say  
A river of blood in the streets  
No love on the streets  
And then came slience on the city that day  
They say  
Just another one gone  
And they tell her, „move On”  
Nd she's stuck there snging:

Baby, don;t you close your eyes  
This could be our final time  
And you know i am horrible at saying goodbye  
And i think of all you cou;d've done  
At least you'll stay forever young  
I guess you've picked the perfect way to die  
I guess you've picked the perfect way to die
