Aurora, Some Type Of Skin

Hit me hard where I am soft
Should my heart reveal itself to be more than a muscle
Or a fist covered in blood
However much it feels to bleed, it's only temporary

We're good people
And we both deserve peace
My god, it's a lot
(I'll build some type of skin, I got to build some type of skin)
My god, it's a lot
(I'll build some type of skin, I got to build some type of skin)

I guess I should build some type of skin
And let breath be air and love the things I know might disappear
And the last light of the sun
I let it slow me down, I'll crawl where everybody runs

We're good people
And we deserve peace
It's difficult, it seems

My god, it's a lot
(I'll build some type of skin, I got to build some type of skin)
My god, it's a lot
(I'll build some type of skin, I got to build some type of skin)
My god, my god, it's a lot
(I'll build some type of skin, I got to build some type of skin)
My god, it's a lot
(I'll build some type of skin, I got to build some type of skin)
My god, my god

It's a lot
It's a lot
My god, it's a lot
It's a lot, a lot to me
To me
