

Alina Eremia x C-BooL, Red Lights

Driving on these streets
Didn't think when i met you
That we'd end up like this
Almost too good to be true

Baby i dunno how to say this really
Lately you've been starring in my daydream
Let's go on and chase the sunrise
Without a destination planned in mind

So kiss me
Under red lights
You're fire to my spark
And love me at my brightest
And love me when i am dark
So kiss me
Under red lights
You made me fall tonight
But fallin' feels like flyin'
I never felt so light
