David Guetta & Sia, Floating Through Space

You made it through another day
You made it through another day
You did it, let’s celebrate
Some days you feel you’ll break
But You made it through another day
You did it, let’s celebrate

24/7 and 365
You made another day, made it alive
made another day, made it alive
24/7 and 365
You made another day, made it alive
made another day, made it alive

so today baby, remember it’s ok
were all floating through space
today baby, remember you’re ok
we’re all floating through space

floating through, floating through
floating through space
floating through, floating through
floating through space
were floating through space

we are like grains of sand
better to be holding hands
better to be holding hands
we are like grains of sand
better to be holding hands
better to be holding hands

24/7 and 365
You made another day, made it alive
made another day, made it alive
24/7 and 365
You made another day, made it alive
made another day, made it alive

so today baby, remember it’s ok
were all floating through space
today baby, remember you’re ok
we’re all floating through space
