BANKS, Contaminated

you wanna get to know me
you memorized the lines of my things
I knew before you told me
you’d get it right

and you took the dark of granted
and you love me like you promised your wife
it’s almost like you planned it in the daylight

I can attain it
I can attain it
I can attain it
I can attain it
I can attain it
I can attain it

I like the way you say
tell the words you told me that day
maybe if I could believe it could just stay

and I wish I could change it
and we’re always gonna be
contaminated
and oh
I know what we need
you start letting me go
our love is tained

you said they’d be against us
I say you care too much what they say
you said: do me a favor gimme some faith
cuz you promise me you’d do it
you said baby let me prove
it took at me in the face
this is the face of someone who loves you babyb

and I wish I could change it
and we’re always gonna be
contaminated
and oh
I know what we need
you start letting me go
our love is tained
