Banx & Ranx, Speaker (feat. Olivia Holt & ZieZie)

Yeah, Banx & Ranx

You wanna go find an empty room
Somewhere that I can get to know you
But you're in my space, so I don't want to
It's getting late, but I won't leave soon

So, baby, come closer to my ear
I can't, I can't hear
We can talk about it over here
What you, what you say?
So, baby, come closer to my ear
I can't, I can't hear you
Yeah, you

Everybody is standing outside of the party
But you and I are right next to the speaker
We can barely speak here
But the louder it is, the closer we get

Too many friends we don't need around
Too many drinks that we can't turn down
Plenty of space in this crowded house
But here in mine's where I want you now

So, baby, come closer to my ear
I can't, I can't hear
We can talk about it over here
What you, what you say?
So, baby, come closer to my ear
I can't, I can't hear you
Yeah, you

Everybody is standing outside of the party
But you and I are right next to the speaker
We can barely speak here
But the louder it is, the closer we get

Yeah, the rhythm we love
Scream and we shout, it's on, yeah
All in the club and we party
It's four in the morning
I see this girl from afar
Follow my eyes and tell her come here
Come, we go to a corner
Come, baby, don't be scared

Everybody knows somebody
So don't worry, mami, yeah
Got our internal party
And the music's gettin' louder
And we're getting closer
And she fall in love

Everybody is standing outside of the party
But you and I are right next to the speaker
We can barely speak here
But the louder it is, the closer we get

But the louder it is, the closer we get
