Bass Astral x Igo, Dancing in the Dark (feat. Runf

I can’t stand a fear
I wanna disappear
But baby can’t you see that?
I am really dancing in the dark
Wish me a luck

I can’t stand a fear
I wanna disappear
But baby can’t you see that?
I am really dancing in the dark

Sometimes it seems to be
It’s easy to be me
Cause just before the dark
Always comes a little bit of light

So hug me ip while i see no use
Settle i tup while i am losing my control
I feel but i can no longer see
My baby can’t you see me nera

Chargé me up wchile i am out ot fuer
Settle i tup and make the view more real
So i could see the colors back

No i don’t want more tears
I wanna just be here
But baby can’t you see taht
All i need is a little bit of trusr

No i dn’t wanna feel
Like i coul;d disappera
But baby please stay near
Together we can light up the light
We can light up the night

And it’s obvoious nowi t seems
It’s no easy to be me
And there’s no cure in here
Cause baby i am just too amotiona;

I know we were hurt like hel lat first
But you’ll be well on day
Just baby keep your faith
Cause darling you and i
Now just dancing in the dark
