Dua Lipa, Voodoo

It's-it's your voo
It's-it's your voo

I can't get away
Found a home in your heartbeat
I keep coming back again
There's a madness that surrounds me

And when you're a thousand miles away
I'm holding on for you
I get on my knees to pray
Cause I've fallen under you

It's your voodoo
It's your voodoo
Is this what they call love
Cause I can't get enough
Must be voodoo

You're my heavy rain
You drench me off of nothing
For all you gotta say
At least can you mean something

And ehen you're a thousand miles away
What am I supposed to do
It's strange cause your love stayed
I've fallen under you

It's your voodoo
It's your voodoo
Is this what they call love
Cause I can't get enough
Must be voodoo

It's your voo
Voodoo, voodoo
Voodoo, voodoo
It's your voo
Voodoo, voodo
Voodoo, voodoo

Why won't you let me go
I'm under your control
Fighting to let you go
And I can't get out
Why won't you let me go
I'm under your control
Fighting to let you go
And I can't get out

It's your voodoo
It's your voodoo
Is this what they call love
Cause I can't get enough
Must be voodoo

Voodoo, voodoo
It's your voo
Voodoo, voodoo
Is this what they call love
Voodoo, voodoo
Must be voodoo
Voodoo, voodoo
