Electric Fields, One Milkali (One Blood) | Australia

I stand in the eye of the spiral
One of them billions, billions, billions, billions
My soul slips away from its title
One of them billions, billions

And I descend to the centre of the earth
I may be dreaming but the atoms are awake
Spill the tea on reality and the 0.618

What ya gonna do in the real world Mickey?
What you gonna do when you see?
Milkali, milkali kutju, milkali
Escape with us to the planets
To the Fleetwood Macs and the Janets
Milkali la

While entertaining the gods
One Milkali la, milkali la
It's raining love
One Milkali la, milkali la

We're on a gravitron
As it tangles
With them billions, billions
Of our souls and angels
We kiss and matter dismantles

To see we don't own the universe
Feel the borders blur
We belong to her

I may be dreaming but the atoms are awake
Spill the tea on reality and the 0.618

What ya gonna do in the real world Mickey?
What you gonna do when you see?
Milkali, milkali kutju, Milkali,
Escape with us to the planets
To the Fleetwood macs and the Janets
Milkali La
While entertaining the gods

One Milkali la, milkali la
It's raining love
One Milkali la, milkali la
While entertaining the gods
One Milkali la, milkali la
It's raining love
One Milkali la, milkali la

Milkali, (milkali kutju)
Milkali, (milkali kutju)
Milkali la, One milkali la

It's raining love
Milkali la, One Milkali la, milkali la

One Milkali la
