Bebe Rexha, Pillow

I just wanna kiss your face
I just wanna feel your gaze
I just wanna, I just wanna
I just wanna be where you are
I just wanna feek your touch
I'm not asking for too much
I just wanna, I just wanna
I just wanna wake up where you are

I used to think that love was just so easy
but I couldn't be less right
yeah

I finally found someone perfect just for me
gotta fly thousands of miles
yeah

I'll be alright just one more night
I'll be just fine holding my pillow
pretending it's you, though
I'll be alright just one more night
I'll be just fine holding my pillow
pretending it's you, though

I need a minute to breathe you in
just a second to taste your skin
I just gotta, I just gotta
feel you here right next to me
can we please just go back in time
those lazy Sundays you and I
Cause every hour and every day
gets more a painful when you're away

I used to think that love was just so easy
but I couldn't be less right
yeah

I'll be alright just one more night
I'll be just fine holding my pillow
pretending it's you, though
I'll be alright just one more night
I'll be just fine holding my pillow
pretending it's you, though

and I can't lie baby I'm losing my patience
too much waiting for you
every time that I wake up my hands go
where I'm waiting for you
I know I say that I'm fine
but I'm losing my mind
just need to hold you
don't take your time
oh baby

I'll be alright just one more night
I'll be just fine holding my pillow
pretending it's you, though
I'll be alright just one more night
I'll be just fine holding my pillow
pretending it's you, though
