Eminem, Freestyle I

Im driven to write
given the mic
livin the life
that u livin at night
just to live in the light
and deliver delight
and slither the slight sight
of the life that ain't right
into your mind
meant to remind
u went through the grind
to get through the line
ain't no more waitin
to reach ur goal
there ain't no more satan
to impeach ur soul
he can't affect u
he can dissect u
and change ur mind
bad thoughts can direct u
defects can be gains
ur worries are tainted
mistakes can be saints
cuz they can correct u
