

Anouk, Run Away Together

Don't you ever try to leave me!
I wouldn't know what to do
And I know this life ain't easy
But we will make it through

Stop for a minute, baby
I will go anywhere
Take all the time you need
As long as I'm with you, I don't care

Let's run away together and never look back
Somewhere we can be alone, out of the black
Let's run away together and never look back
So we can watch the Sun go down and lose track

Kiss me until my lips are numb
Squeeze my heart until it breaks
I'm not afraid of the burning Sun
No, I will do whatever it takes

Just stop the pity and the sorrow
Come here, you'll see!
We can have fun tomorrow
In a place where it's just you and me

Let's run away together and never look back
Somewhere we can be alone, out of the black
Let's run away together and never look back
So we can watch the Sun go down and lose track

And we'll start something new
And leave everything behind
Cause I have never stopped loving you
If only we could turn back time

(Let's run away together and never look back
Somewhere we can be alone, out of the black
Let's run away together and never look back
Somewhere we can be alone, out of the black
Let's run away together and never look back
So we can watch the Sun go down and lose track)
