French Montana, Salam Alaykum

no man’s and Island when he’s had this conversation
no man’s a forest even if he tries to be one
I’ve seen your insides
they’re colorful
but you’re not an island
even if you try to be one whit me
if I had problem
then so did you
it losws
to the ocean and solitude
I swear
colorful
no need a steady hand
intensions clouded

break bread whit my people
break bread whit my people

pop two, got three
French molly
green card from the visa
get caught and he leave
young legend when I leave
young legend when I leave
