# Green Day, Revolution Radio

Scream with your hands up in the sky
Like you want to testify
For the life that's been deleted
Sing like a rebel's lullaby
Under the [?] and stripes
For the lost souls that were cheated

We will be seen but not be heard

Revolution radio
Operation no control
And the headline
My love's bullet proof
Give me cherry bombs and gasoline
Debutantes in surgery
And the headline
Legalize (the truth!)

Give me
Rage like there's teargas in the crowd
Do you wanna live out loud?
But the air is barely breathing
Rise of the slums to the obsolete
The dawn of the new airwaves
For the antisocial media

Revolution radio
Operation no control
And the headline
My love's bullet proof
Give me cherry bombs and gasoline
Debutantes in surgery
And the headline
Legalize (the truth!)

We will be seen but not be heard
We are the songs of the disturbed

Revolution radio
Operation no control
And the headline
My love's bullet proof
Give me cherry bombs and gasoline
Debutantes in surgery
And the headline
Legalize (the truth!)
