Green Day, Troubled Times

What good is love and peace on Earth
What’s it’s exclusive?
Where’s the truth in the written word?
Of no one reads it
A new day dawning
Comes without warning
So, don’t blink twice

We live in trouble times /2x

What part of history we learned
When it’s repeated
Some things will bever overcome
If we dontl;t seek it
The World stops turning paradise burning
So, don’t blink twice

We live in trouble times /3x

We run for cover
Like a skyscraper’s falling down
Than I wander like a troubled mind
