

Ava Max, Naked

Wrap me in designer sheets
And trace along this frame
Ask me why the used to say
The trouble was my name
I've been playin' a fool
Since
I stepped into the game
Tell me i am like Heabven
Take the good Lord's name in vain

But when i play my cards
Keep 'em close to my chest
Never fall in love
Everybody loses the bet

But underbeath
I just need to forget
So come and get me undressed

Well , you can take off all my clothes
And never see me naked
See me for real

If you don't know my heart
You're never gonna break it
Baby

Tell my if it's safe to bare my soul
I wanna show you my deepest secrets
I think i am ready to be exposed

I want you watching me
When you can take off all my clothes
And really see me naked
See me for real

If i let leave the light on
And i drop my guard
Promise that you'll see me for my truth
And not my scars

But whn i play my cards
Keep 'em close to my chest
Never fall in love
Everybody loses the bet

But underbeath
I just need to forget
So come and get me undressed

Well , you can take off all my clothes
And never see me naked
See me for real

If you don't know my heart
You're never gonna break it
Baby

Tell my if it's safe to bare my soul
I wanna show you my deepest secrets
I think i am ready to be exposed
