# BURNS x Maluma x Rae Sremmurd, Hands On M

baby, keep your hands on me
know that I should leave
but I just can’t leave you
know you feel my energy
if I took your heart
swear my energy
if I took your heart
I didn’t mean to

you got a man
but I don’t know that
it’s hard to control when you work like that
why don’t we take one more sip
just to hide the fact
that I’m about to take one missed call
before it turn to trash
before it turn to trash

baby, keep your hands on me
know that I should leave
but I just can’t leave you
know you feel my energy
if I took your heart
swear my energy
if I took your heart
I didn’t mean to

I cannot control your mind
don’t think that I;m just talking trash
o know you want mr, surely
night’s already passed
it’s getting early
roll some weed
call on some girls
only if the vibes are right
I want you all yo myself
I’m tryna blow, your mind
threesome, her friends overheard me
I left the girl, now she wanna hurt me
soending my cash in a hurry
killing me soflty
she had no mercy
babay you’re driving me mental
