James Newman, My Last Breath (Wielka Brytania

some people let go
some people let love slop away
but I am gonna hold on
when no one believes
I'll keep the faith

and I know that we're in trouble
but I swear that we'll survive

if we were deep sea drivers
and no one came to find us
if you had nothing left
I'd give you my last breath
I'd give you my last breath

we all need a lifeline
someone to call when we're alone
its all good in the good tines
but I'll still be there when it all goes wrong
yes, I will!

if we were deep sea drivers
and no one came to find us
if you had nothing left
I'd give you my last breath
I'd give you my last breath

and I know that we're in trouble
but I swear that we'll survive

if we were deep sea drivers
and no one came to find us
if you had nothing left
I'd give you my last breath
I'd give you my last breath
