C-BooL, Higher

oh my God, another boring day
I still didn’t know if everything‘s ok
but there is something new
there’s something I can do
just whit you

someone said it’s really nice to fly
a simple plan, we can do it at night
I am gonna take you higher
we’re gonna light this fire
hold me onw

we have to bring some stardust form the sky
together we will learn how to fly
I gotta take you higher, higher
higher, far from the ground

I gotta take you higher,
I gotta take you higher, higher
I gotta take you higher, higher
higher, far from the ground
from the ground

we have to bring some stardust form the sky
and we will not return till the morning light
I gotta take you higher, higher
higher, far from the ground

I gotta take you higher,
I gotta take you higher, higher
I gotta take you higher, higher
higher, far from the ground

we have to bring some stardust form the sky
together we will learn how to fly
I gotta take you higher, higher
higher, far from the ground

I gotta take you higher,
I gotta take you higher, higher
I gotta take you higher, higher
higher, far from the ground
from the ground
