Joji, TEST DRIVE

She don’t wanna tell lies
she don’t wanna tell lies
She just wanna feel alive
She just wanted more time
I’m looking for a long ride
She just want a test drive
Now you go the west side
I’ll see you in the next life

what do you want?
I don’t like when you taunt me
you’ve been calling the wrong line
I say who do you want babe?
I am working on my name
I hope you do the same
you got me afraid again
so let me just pray again

you’re gonna jump through hoops
know how many lines you drew
no matter when you lose
everything I’ve done for you

She don’t wanna tell lies
she don’t wanna tell lies
She just wanna feel alive
She just wanted more time
I’m looking for a long ride
She just want a test drive
Now you go the west side
I’ll see you in the next life

waiting on a sacrificial life
waiting on the ones who didn’t fight
I told you not to waste my fuc*** time
I told you never sing that song you like

you’re gonna jump through hoops
know how many lines you drew
no matter when you lose
everything I’ve done for you

She don’t wanna tell lies
she don’t wanna tell lies
She just wanna feel alive
She just wanted more time
I’m looking for a long ride
She just want a test drive
Now you go the west side
I’ll see you in the next life
