Sometimes i know my fire burns low
But as long as you’re with me
I’lll never get cold

Dat and night
Till darkness and light
I never worry when you’re by my side

Feelings chnage and seasons fade
But nothig will burn us out
Nothing can stop us now

Out of the embers
You and i gonna light up the room
(You and i gonna light up the room)

Out of the embers
There’s a fire burning for you
(You and i gonna light up the room)
