Jonas Blue, Rise (ft. Jack & Jack)

we’re gonna rise till we fall
this time we got no future at all
they wanna keep us down
but they can’t hold us down anymore
we’re gonna rise till we fall

when we hit the bottom
then it goes up
climb to the top with you
we’re gonna be the breaks
once whoever waits
ya I could be talking to you
they tryna hate hate hate
but we won’t change
change anything at all
we’re gonna rise till we fall

they think we just dropped out
living at my mom’s house
paris must be so proud
that know it all
they don’t speak our language
they say we’re too savage
no, no we don’t need te anymore

we’re gonna rise till we fall
this time we got no future at all
they wanna keep us down
but they can’t hold us down anymore
we’re gonna rise till we fall
we’re gonna rise till we fall
we’re gonna rise till we fall
we’re gonna rise till we fall

so we’re going mowhere
but they don’t know if we don’t know
don’t vcare
we’re gonna keep on going till we can’t fo no more
we’re gonna rise till we fall

they think we just dropped out
living at my mom’s house
paris must be so proud
that know it all
they don’t speak our language
they say we’re too savage
no, no we don’t need te anymore

we’re gonna rise till we fall
this time we got no future at all
they wanna keep us down
but they can’t hold us down anymore
we’re gonna rise till we fall
we’re gonna rise till we fall
we’re gonna rise till we fall
we’re gonna rise till we fall
