Camila Cabello, Used To This

No, I never liked San Francisco
Never thought it was something special
Till you kissed me there
No, I never liked windy cities
But I think maybe when you're with me
I like everywhere

It's the strangest feeling
Midnight, I'm not leaving
Know for once, I think I'll stay
I'll say your name, just listen
Doesn't it sound difference
Never whispered it this way

It's gonna take me a minute
But I could get used to this
I feel it in your fingertips
The feeling of another kiss
It's gonna take me a minute
But I could get used to this
Like every tattoo on your skin
I'm memorizing every inch
I could get used to this
I could get used to this
Definitely

No, I never did like tequila
But there's something about when I see ya
I think I need a drink
And the callouses on your fingers
I admire them from a distance
Now they're on my cheek

Oh, I've known you forever
Now I know you better
Let's just get carried away, oh
And it bears repeating
How hard my heart's beating
When you tell me I should stay

It's gonna take me a minute
But I could get used to this
I feel it in your fingertips
The feeling of another kiss
It's gonna take me a minute
But I could get used to this
Like every tattoo on your skin
I'm memorizing every inch
I could get used to this
I could get used to this
I could get used to this
I could get used to this
Definitely

No, I never liked San Francisco
Never thought it was something special
Till you kissed me there

It's gonna take me a minute
But I could get used to this
I feel it in your fingertips
The feeling of another kiss
It's gonna take me a minute
But I could get used to this

Like every tattoo on your skin
I'm memorizing every inch
I could get used to this

I feel it all (I could get used to this)
You're kiss is all
I'll risk it all
Certain things are starting to fall
But we lost it all
And I just can't believe it all
Definitely
