Katy Perry, Roulette

I’m uptight
Playing by the rules in this game of life
365 days on the grind
Something’s stirring
I might need to unwind
Then there’s you
Texting me a little bubble of trouble
I’ve tried to ignore these thoughts the rumble
I think I’m bored of being so careful

Big city lights
Got me flirting with fire
Tonight I’mma let my hair down
Have a few rounds and just let go

Like a roulette
Wanna close my eyes and roll it with, with you
Like a roulette
Wanna lose control and forget with you
Like a roulette
Let’s roll it

They say everything in moderation
And sometimes you got to give in to temptation
So I drop a pin to my location
Let’s roll the dice

Big city lights
Got me flirting with fire
Tonight I’mma let my hair down
Have a few rounds and just let go

Like a roulette
Wanna close my eyes and roll it with, with you
Like a roulette
Wanna lose control and forget with you
Like a roulette
Let’s roll it

So tonight we test limits
Take the safety off for a minute
Cause my love’s a bullet with your name written on it
Just load it and spin it
