Carly Rae Jepsen, Let's Be Friends

call out your persuasions
I got the feeling that you don’t know what to say
it’s a black dress occasion
nobody’s dying it’s a dinner not a date but i
feel young and inspired
that this is over and I am hoping you’ll agree so i
phase out and smile over
that little phrase isn’t you baby
it’s me

so take the tarot card
and tell a fortune gold
the past heartbreaks the lies we told we tell again

let’s be finds that never speak again
it’s cool we can just pretend were friends and never speak again
see you soon hope we can remain good friends

you take it
th e bottle down
man, this is easuer than how I though it’s go
you smiling
like a devil
you tell me you were coming
here to leyt me know that
it’s over when it’s over
and it’s over baby

so take the tarot card
and tell a fortune gold
the past heartbreaks the lies we told we tell again

let’s be finds that never speak again
it’s cool we can just pretend were friends and never speak again
see you soon hope we can remain good friends

catch you later
never gonna see you again
see you never
let’s be friends
catch you later
let’s be friends
catch you later
never gonna see you again
see you never
I had a reali nice rime whit you
I mean you’re sort of a dick sometimes but
someone out there is surely gonna love a dick
check, please!

let’s be finds that never speak again
it’s cool we can just pretend were friends and never speak again
see you soon hope we can remain good friends

catch you later
never gonna see you again
I will see you never
let’s be friends
catch you later
never gonna see you again
I will see you never
let’s be friends
