Katy Perry, Daisies (Can't Cancel Pride)

Told them your dreams
and they all started laughing
I guess you're out of your mind
till It actually happens
I'm the small town
one in 7 billion
why can't it be me

they told me I was out there
tried to knock me down
took those sticks and stones
showed 'em
I could build a house
they tell me that I am crazy
but will never
let 'em
change me
till they cover me in daisies
daisies
daisies

when did we all stop believing in magic
why did we pt
all our hopes in a box in the attic
I'm the long shot
I'm the Hail Mary
why can't it be me

they told me I was out there
tried to knock me down
took those sticks and stones
showed 'em
I could build a house
they tell me that I am crazy
but will never
let 'em
change me
till they cover me in daisies
daisies
daisies

they said I'm going nowhere
tried to count me out
took those sticks and stones
showed 'em
I could build a house
they tell me that I am crazy
but will never
let 'em
change me
till they cover me in daisies
daisies
daisies

in small town
one in 7 billion
why can't it be me

they told me I was out there
tried to knock me down
took those sticks and stones
showed 'em
I could build a house
they tell me that I am crazy

but will never
let ‘em
change me
till they cover me in daisies
daisies
daisies

they said I’m going nowhere
tried to count me out
took those sticks and stones
showed ‘em
I could build a house
they tell me that I am crazy
but will never
let ‘em
change me
till they cover me in daisies
daisies
