Katy Perry, Tsunami

Please don't tip-toe
Come closer let's flow
Anchor in me
And het lost at sea
The world’s your oyster
I’m the pearl
Open waters
Sink into me slowly

So baby, come and take a swim with me
Make me ripple
Till I’m wavy
Don’t be scared to dive in deep
And start a tsunami
Tsunami

Don’t fight, just5 ride
The rhythm of the tide
We swirl, we spin
Salted, sun-kissed skin
We fload together
Whatever weather
Embrace the breeze
And sail away smoothly

So baby, come and take a swim with me
Make me ripple
Till I’m wavy
Don’t be scared to dive in deep
And start a tsunami
Tsunami

You’re waking up an ocean of emotion
That my body can’t hide
Tsunami
No you’re soaked in my devotion
Cause you opened up a paradise

So baby, come and take a swim with me
Make me ripple
Till I’m wavy
Don’t be scared to dive in deep
And start a tsunami
