Carly Rae Jepsen, Now That I Found You

Waking up next to you every morning
How did we get this far?
It came without a warning
And in the nighttime, you tell me your whole life
You want me get too real but all I feel is alright

my heart’s a secret
I hink I’m coming alive
I think I’m coming alive with you
tell me you’ll keep it
I think I;m coming alive
I come aliwe with you

don’t give it up
don’t say it hurts
cause here’s nothing like this feeling, baby
now that I found you
I want it all
no, there’s nothing like this feeling, baby
now that I found you
now that I found you
now that I found you

give me the words I want
baby just say it
you know me way too well to keep it complicated
don’t wanna hide my love
I don’t wanna waste it
but I can’t deny the moment when I taste it

my heart’s a secret
I hink I’m coming alive
I think I’m coming alive with you
tell me you’ll keep it
I think I;m coming alive
I come aliwe with you

don’t give it up
don’t say it hurts
cause here’s nothing like this feeling, baby
now that I found you
I want it all
no, there’s nothing like this feeling, baby
now that I found you
now that I found you
now that I found you
