Charlie Puth, Cheating on You

it started whit a kiss
on your momma’s couch
2012 was nothing serious
and then we caught the feels
if got really real
too good to be true
I guess I thought you was yeah

why did I run
run away /2x
your love was
everything /3x
I know it’s
getting late /3x
but can I still be on my way
on my way

i know i said goodbye
and baby you said it too
but when i touch her i feel like i am cheating on you
I thought that I’d be better when I found someone new
but when i touch her i feel like i am cheating on you
baby now
cheating on you
baby now
but when i touch her i feel like i am cheating on you

thought I could get you back
any time of day
shouldn’t have been so cocky
shouldn’t have did you wrong
and now I miss you bad
really, really bad
guess you don’t know what you got until it’s gone

why did I run
run away /2x
your love was
everything /3x
I know it’s
getting late /3x
but can I still be on my way
on my way

i know i said goodbye
and baby you said it too
but when i touch her i feel like i am cheating on you
I thought that I’d be better when I found someone new
but when i touch her i feel like i am cheating on you
baby now
cheating on you
baby now
but when i touch her i feel like i am cheating on you

baby, no
there ain’t no lips like your lips
and nobody else feels like this
there’s no moving on I’ll admit
if you go away
yeah

i know i said goodbye
and baby you said it too
but when i touch her i feel like i am cheating on you

I thought that I'd be better when I found someone new
but when i touch her i feel like i am cheating on you
baby now
cheating on you
baby now
but when i touch her i feel like i am cheating on you
