Little Mix, Power

Hold up, no you didn't bow, bow
I ain't the chick to walk behind you around town
Just cos you're packin', packin', whoop, down south
That don't mean I'm ever gonna take it laying down, baby
Oh I'm a machine when I do it
I'll be catching fire, gasoline when I do it
Just cos you're packin', packin', whoop, down south
That don't mean I'm ever gonna take it laying down

Baby, you're the man
But I got, I got, I got the power
You make rain
But I'll make it, I'll make it, I'll make it shower
You should know, I'm the one who's in control
I'll let you come take the wheel, as long as you don't forget
Who got the power
(HOLD UP!!!)

My turn
I make this look easy
Tick Tick boom like gasoline-y
Yeah they call me Lamborghini
Cos I know just what I'm worth
Zero to hundred
B-b-body make' em stutter
Start my engine, push the button
Cos I'm gon' be coming first
Yeah, I'm a machine when I do it
I'll be catching fire, gasoline when I do it
Just cos you're packin', packin', whoop, down south
That don't mean I'm ever gonna take it laying down

Baby, you're the man
But I got, I got, I got the power
You make rain
But I'll make it, I'll make it, I'll make it shower
You should know, I'm the one who's in control
I'll let you come take the wheel, as long as you don't forget
Who got the power
Who got the power
Who got the power

Don't be fooled, I got you wrapped up
In the arms of an animal
Got you thinking that I'm all inncoent
But wait 'till I get you home
If you don't baby you should know
I'm the one who's in control
Motorbike, motorbike, motorbike, motorbike
Bike, bike, bike, bike
Bike, bike, bike, bike, bike, bike, whoop

You're the man
But I got, I got, I got the power
You make rain
But I'll make it, I'll make it, I'll make it shower
You should know, I'm the one who's in control
I'll let you come take the wheel, as long as you don't forget

You're the man
But I got, I got, I got the power
You make rain
But I'll make it, I'll make it, I'll make it shower
You should know, I'm the one who's in control

I'll let you come take the wheel, as long as you don't forget
Cause I got, I got, I got the power
Oh yeah, yeah, yeah
Baby don't forget I got the power, yeah
The power yeah, yeah-eh

Motorbike, motorbike, motorbike, motorbike
Bike, bike, bike, bike
Bike, bike, bike, bike, bike, bike, whoop...
