Chris Brown, To My Bed

close the door and take your cloths off where you are
I turn you on cause I love to see you glowing
I know it’s good I can tell by the way you walk
I pull your cloths cause I love to feel you coming down

cause the mattress is so far away
and my clock is watching
ain’t no time to waste
since my hands already down your waist
you better show me, that you want it right away cause
I’ll freak you right, I will /2x
I’ll stick my tongue
I’ll speak that language
use my foreign skills
my hands all in your hair
naked before we hit the stairs
can’t even make it here

no we ain’t gon’ it to make bed
I know we ain’t gon’ make it to my bed
know we ain’t gon’ make it to my bed
tear it up when I get wasted
now that I got you aked
I know we ain’t gon’ make it to my bed

spend inside, lay it down, I’ma eat it up
what’s for dessert?
already swerin’ on the codein
while you drive, girl, get high
I’ma pass the blunt
doing the most
we on the floor
I might as well go dwon

cause the mattress is too far away
and my clock is watching
ain;t no time to waste
ince my hands already on your waist
you wanna shoe me, that you want it right away
I’ll freak you right, I will /2x
I’ll stick my tongue
I’ll speak that language
use my foreign skills
my hands all in your hair
naked before we hit the stairs
can’t even make it here

no we ain’t gon’ it to make bed
I know we ain’t gon’ make it to my bed
know we ain’t gon’ make it to my bed
tear it up when I get wasted
now that I got you aked
I know we ain’t gon’ make it to my bed
no we ain’t gon’ it to make bed
I know we ain’t gon’ make it to my bed
know we ain’t gon’ make it to my bed
tear it up when I get wasted
now that I got you aked
I know we ain’t gon’ make it to my bed

fucking up the sheets, girl, you need another mattress
you know how love go
perfectin’that’s why you practice
we gon’ speed it up

slow it ddown
then you ask me what I ‘m laughing for
and you ain’t just dsomebody on my hitlist

tear it up when I get wasted
now that I got you aked
I know we ain’t gon’ make it to my bed
