Coldplay x Selena Gomez, Let Somebody Go

We had a kind of love
i thought that it would never end
all my lover
all my other
all my friend
we talked around the circle
you talked around and than
I love you to the moon and back again

you gave everything this golden glow
now turn off all the stars
cause this i know
that it hurts like so
to let somebody go

All the storms we aeatheresd
Everything that we went through
Now without you
Whan on Earth am i to do?
When you call the mathematicians

And ask them to explain
They say love is only equal to the pain

And when everything was going wrong
You could turn my sorrow into song
It hurts like so
To let somebody go
To let somebody go

When you love somebody /2x
Go to let somebody know
/2x

So When you love somebody
When you love somebody
Then it hurts like so
To let somebody go
it hurts like so
To let somebody go

But you're still with me now
I know
To let somebody go
But you're still with me now
