Miley Cyrus, Party Up the Street (feat. Swae Lee)

i'm sure that you know where i stand
lead me on
do it while you still can
party up the street
even though there is no place to park
party up the street
and you know what happens after dark
you can see our feet from the street
ince the garage was halfway open
our eyes didn;t meet until we started rollin

party up the street
even though there is no place to park
party up the street
and you know what happens after dark

the way thayt you movin' your body
i want money
soon as i put it on you
you wanna guard me
we didn;t come this close for nothing
we didn;t come this far for nothing

party up the street
even though there is no place to park
party up the street
and you know what happens after dark

you can count on me, ok
you and me, we can be ok
we can rock like an ocean wave
you and me, we can be ok
you and me, we can be ok
we can go out with a bang

party up the street
the way thayt you movin' your body
i want money
party up the street
the way thayt you movin' your body
i want money
party up the street
the way thayt you movin' your body
i want money
party up the street
the way thayt you movin' your body
i want money
