Little Mix, Private Show

(Jesy)
You got my adrenalin
Pumping when you stand so close
I can't help imagining all the things we'd do
With no clothes on

(Leigh-Anne)
We're touching , we're teasing
We don't need a reason
And I've got a feeling that soon we'll be leaving
Right from the get go , you had me at hello
Can't wait so let's go ' cause you're the only one that's taking me home

Can't wait to get in my zone
Who said we have to go slow
Turn down the lights, and watch my private show
You got a ticket for all
To get high we got to get low
'Cause this is your private show

(Jade)
Put your kisses on my lips
We ain't here for playing these games
It's loving with a little twist
Get you hooked with just one taste

(Perrie)
