Daria Zawiałow, Flower Night

Eyes
Detected on my walls
I think they’re coming now

Fight
It’s only in my head
Infected copy brain

Summertime
Summertime
Summertime feeling

Love me till the night
Before the stars tear us upart
Love me till the night
Before they come and take me away
Love me till the night
Before the moon tears us apart
Love me till the night
Love me till last cry
Before the tears dry up and go away

Slice
Of rainy summer night
It’s just a xouple drops
Fight
It’s onmy in my head
I want this to the end

Flower night
Flower night
Flower night feeling

Love me till the night
Before the stars tear us upart
Love me till the night
Before they come and take me away
Love me till the night
Before the moon tears us apart
Love me till the night
Love me till last cry
Before the tears dry up and go away
